Goal 1: All students of Pellston Middle/High School will demonstrate proficiency in Writing by 2018-2019.

Measurable Objective 1:

A 5% increase of All Students will demonstrate a proficiency and competency in Writing with students meeting requirements in Writing by 06/14/2019 as measured by as measured by state designated tests..

Strategy 1:

K-12 Supplemental Instruction 2018-2019 - Through the use of triangulation of data (historic grades, BEACON benchmark assessments, and M-Step data) general education teachers will identify students for extended learning time and small group supplemental instruction. Supplemental instruction will be provided by general education teachers, Title I teachers and Title I paraprofessionals utilizing both push-in and pull-out flexible models of instruction. Funds used to support this intervention will come from various grant and school aid funds.

Pellston Middle/High School Improvement Plan 06212018

Pellston Middle/High School

Pellston Middle/High Staff will implement an intervention period to support in reading for each grade level 6-9. Data will be triangulated using grades, MSTEP, and Benchmark tests to determine level of need and service provided. Intervention instructors will be provided in the WIN (What I Need) period. The WIN period will provide skills to support academic success in their regularly scheduled class. These periods and instruction will be provided opposite an academic seminar where students will be provided supports to ensure their academic supports as well. Activity - 6-12 Extended Learning Time 2018-2019	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Students 6-12 will be identified for extended learning opportunities beyond the regular school day. Funding will provide extended day learning opportunities for students identified by one or more sources: teacher recommendations, progress monitoring, local and M-Step achievement data, quarterly grades, and Beacon Benchmark Assessment . Programming will provide additional support in all content areas, including mathematics. Students identified as at-risk in grades 6-12 will be provided an opportunity to work in a small group setting and provided additional assistance from a certified teacher. Students receiving services may do so at the recommendation of a teacher, counselor, administrator, or parent where data supports the student receiving the service. Activity - 6-12 Student Self Assessment 2018-2019	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Research suggests that student self assessment or self reported grading is one of the most impactful practices that can be implemented in our instructional practices. According to Hattie (2015), Self Reported Grading suggests an effect size or impact of 1.33 when adopted into instructional practices. Teachers and administration will form teams with the common goal of developing strategies that support student self assessment and use of formative assessment over time. Students will be able to use the success criteria defined by the teacher to communicate their learning and are able to determine their learning goals and monitor progress over the course of the school year. Our team of teachers/teams will commit to a specified number of designated times that they will put these concepts into practice over the course of the year (3 times/semester) and will collaborate on the practice. Meeting time will be provided in order to analyze the strengths as well as focus areas, resources needed, and additional professional developments and supports needed to ensure the success of our teams and this practice. Designated times will be supported through the use of the four hours of additional professional development outside of the school day. Staff will schedule to meet with administration to support this endeavor. Activity - 6-12 Student Self Assessment 2018-2019	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Research suggests that student self assessment or self reported grading is one of the most impactful practices that can be implemented in our instructional practices. According to Hattie (2015), Self Reported Grading suggests an effect size or impact of 1.33 when adopted into instructional practices. Teachers and administration will form teams with the common goal of developing strategies that support student self assessment and use of formative assessment over time. Students will be able to use the success criteria defined by the teacher to communicate their learning and are able to determine their learning goals and monitor progress over the course of the school year. Our team of teachers/teams will commit to a specified number of designated times that they will put these concepts into practice over the course of the year (3 times/semester) and will collaborate on the practice. Meeting time will be provided in order to analyze the strengths as well as focus areas, resources needed, and additional professional developments and supports needed to ensure the success of our teams and this practice. Designated times will be supported through the use of the four hours of additional professional development outside of the school day. Staff will schedule to meet with administration to support this endeavor. Pellston Middle/High School Improvement Plan 06212018

Pellston Middle/High School

Pellston Middle/High Staff will implement an intervention period to support in reading for each grade level 6-9. Data will be triangulated using grades, MSTEP, and Benchmark tests to determine level of need and service provided. Intervention instructors will be provided in the WIN (What I Need) period. The WIN period will provide skills to support academic success in their regularly scheduled class. These periods and instruction will be provided opposite an academic seminar where students will be provided supports to ensure their academic supports as well. Goal 6: All students will increase proficiency in the demonstration of appropriate social skills and emotional regulation within the school setting 2018-2019.

Measurable Objective 1:

demonstrate a proficiency of learning the behavior expectations for the building by 06/30/2019 as measured by reducing the office discipline referrals by 15% as compared to the previous school year data.

Strategy 1:

Social Emotional Learning Initiative 2018-2019 - District, building and teacher leaders will work collaboratively to integrate opportunities to build staff and students' social emotional competencies, enhancing the skills, attitudes, and behaviors that research indicates are necessary precursors to effective and ethical mastery of daily tasks and challenges. Explicit teaching and modeling of the five social emotional learning competencies: 1) Self Awareness, 2) Self-Management, 3) Social Awareness, 4) Relationship Skills and 5) Responsible Decision-Making will occur for all staff and students throughout the building. Opportunities for guided and independent practice of the five competencies will be embedded in students' existing courses and staff professional learning opportunities. Building-wide staff and student expectations will reflect an understanding and integration of SEL competencies. Corrections and consequences for staff and/or student behavior errors will be aligned with both building expectations and SEL competencies. Stakeholders will be engaged in learning opportunities that build their understanding of the compelling "why" for SEL work, the purpose and intended outcomes of the work, and the role they can play in supporting and extending the work.

The district in collaboration with Northern Michigan Community Mediation will employ a Restorative Practices Coordinator (RPC). The RPC will identify students for behavioral support based on office discipline referrals (ODR) from the previous school year. The coordinator will utilize a variety of Tier II strategies such as check-in/Check-out system with identified students. The coordinator will work collaboratively with building level administrators and counselors to organize, record, and analyze office discipline referrals in an effort to proactively respond to trend and classroom referral data. Strategy 2:
 Explicit Instruction of Social Skills and Emotional Regulation 2018-2019 - Students in Kindergarten through sixth grade will explicitly be taught social emotional learning (SEL) skills within district classrooms. The Common Core State Standards implicitly embeds within the Standards social emotional skill acquisition. Skills such as "students make sense of problems and persevere in solving them" or "when constructing viable arguments, students justify their conclusions, communicate them to others, and respond to the arguments of others" and "RL.3.3 Describe characters in a story (e.g., their traits, motivations, or feelings) and explain how their actions

Research Cited: Research confirms that a focus on SEL improves students' social, emotional, and academic skills. In a meta-analysis of 213 SEL programs/interventions that conducted experimental or quasi-experimental designs, Durlak and colleagues (2011) (Durlak, J.A., Weissberg, R.P., Dymnicki, A.B., Taylor, R.D., & Schellinger, K.B. (2011). The impact of enhancing students' social and emotional learning: A meta-analysis of school-based universal interventions. Child Development, 82, 405-432.) found that students in SEL interventions (compared to control students) increased in social-emotional skills, attitudes towards self and others, academic achievement, and positive social behaviors, and decreased in conduct problems and emotional distress. More specifically, the meta-analysis revealed that students with SEL training gained 11 percentile points in test scores and similar gains in grades relative to students not in SEL program.

6-12 Student Self Assessment 2018-2019	<p>Research suggests that student self assessment or self reported grading is one of the most impactful practices that can be implemented in our instructional practices. According to Hattie (2015), Self Reported Grading suggests an effect size or impact of 1.33 when adopted into instructional practices. Teachers and administration will form teams with the common goal of developing strategies that support student self assessment and use of formative assessment over time. Students will be able to use the success criteria defined by the teacher to communicate their learning and are able to determine their learning goals and monitor progress over the course of the school year. Our team of teachers/teams will commit to a specified number of designated times that they will put these concepts into practice over the course of the year (3 times/semester) and will collaborate one the practice. Meeting time will be provided in order to analyze the strengths as well as focus areas, resources needed, and additional professional developments and supports needed to ensure the success of our teams and this practice. Designated times will be supported through the use of the four hours of additional professional development outside of the school day. Staff will schedule to meet with administration to support this endeavor.</p>	Teacher Collaboration, Direct Instruction, Academic Support Program, Professional Learning, Walkthrough	Tier 1	Implement	09/01/2018	06/30/2019	\$0	6-12 staff
