Project:
Pellston Schools
2026 Locker Replacement
Project

Addendum #1:

Bid date and time remains unchanged Bids are due on **Tuesday, October 20, 2026 at 2:30 pm** in the Office of the Superintendent.

Prospective bidders are required to review ALL drawings and specifications and include all work as designated in your work scope. Special attention to RFP section #4 Scope of Services and this addendum.

RFI's must be submitted no later than October 16, 2026 by the end of the business day (5:00 PM). If questions arise after this date, you must clarify your bid and/or supply a voluntary alternate so the owner can equally review and address all bids received.

Email Correction:

- 1) Replace the Title sheet with the corrected one showing the correct District Representative Email Address.

Clarifications:

- 1) Are there any ADA/Accessibility requirements of designated accessible locker configurations that should be included within the 413 lockers.

Please confirm there are no special locking or keying requirements beyond the padlock-eye latching specified.

ADA accessible lockers shall be included per the state building accessibility requirements and should be scattered throughout the locker layout. This layout should be reviewed with the district representative. Locker locking shall be as specified.

- 2) With lockers located on both the first and second floors, is there an elevator available for material handling during removal and installation?

Yes, there is an elevator that can be utilized by the installers. You would be responsible for all wall and floor protection. Any damages committed by the installers would be the responsibility of the installer and is expected to be corrected by them prior to any final payment. See Section 4.4.2 of the RFP

- 3) Are there any specific requirements for floor/wall protection or designated material routes during installation?

Floor and wall protection is to be provided by you. You will need to work specifically with the District Representative on designated routes. See Section 4.4.2 of the RFP.

- 4) Understanding the existing locker bases to remain, were there any areas or existing conditions identified during the walk through that may require base modifications, repair, or other accommodation for the new lockers?

This is the responsibility of the Contractor/Supplier. See the Advertisement Paragraph 3 and Section 1.1.4 of the RFP.

- 5) Are there any prevailing wages, certified payroll, or other specific labor requirements applicable to this project?

No Prevailing Wages, Certified Payrolls or other specific labor requirements are required.
